

New Pfizer Results: Coronavirus Vaccine Is Safe and 95% Effective

The company said it planned to apply for emergency approval from the Food and Drug Administration “within days.”

AstraZeneca Covid-19 vaccine is 70% effective on average, early data show

U.K. Approves Pfizer Coronavirus Vaccine, a First in the West

The emergency approval, ahead of the United States and the European Union, clears the way for Britain to begin mass inoculations. “Help is on its way,” one official said.

Moderna’s coronavirus vaccine found to be nearly 95 percent effective in a preliminary analysis

The United States could have two coronavirus vaccines available on a limited basis by year’s end

Why Oxford’s positive COVID vaccine results are puzzling scientists

Preliminary data suggest that the immunization was more effective in trial participants who received a lower dose.

Pfizer Applies for Emergency F.D.A. Approval for Covid-19 Vaccine

A large team of regulators at the agency will take about three weeks to review an application spanning thousands of pages.
